

COMPARISON OF FEATURES

DUCTS

SUPERIOR AIR DUCTS® - COTTON INSULATED

- Permanent R8+ value
- Does not condensate
- Mold and mildew resistant
- Vermin resistant
- Flame resistant, fire retardant
- Will not crush
- No health hazards
- 10 year warranty & life time guaranty
- Environmentally friendly, recycled materials

CONVENTIONAL FLEX DUCT - FIBERGLASS INSULATED

- Continuous loss of R value
- Does not separate temperatures, so it condensates
- As it looses R value it may promote mold/mildew due to moisture
- Not treated to resist vermin
- In case of fire it will melt down
- Weak structure makes it collapse:
- Visible warning labels to your health safety
- 5 year or no warranty & no guarantees
- Recycled aspect is highly questionable
